Office spaces in The Hague
The Hague is home to over 200 international organisations. As the international city of peace and justice, The Hague is an attractive location for international organisations and NGOs to settle in. Additional to its beautiful location next to the beach and its close proximity to other cities like Amsterdam and Brussels, the city breathes an environment of innovation and cooperation. International organisations in The Hague work on a variety of topics ranging from conflict resolution, energy transition and responsible use of digital technology. On a daily basis, these organisations work towards creating a better world.

This brochure presents an overview of the various shared office locations in the city where many of these organisations are accommodated. Each location shows the type of organisations that are established there, the facilities on offer and where the building is located in the city. If you are interested or would like to receive more information, please get in touch with the contact person of the specific location.
